Stottland Business Solutions

Appreciation Letter

Dear Yaacov,

After 3 years working with us (based on an outsourcing services), we are happy to express our appreciation for your excellent work done and keep doing at APM.

During this period you led us through the critical path of finding new contract manufacturer and establishing best practice manufacturing process, which leveraged APM order fulfillment to the highest level.

Your extensive experience helped us to develop Supply Chain Management infrastructure, re-engineering of manufacturing process resulting in shorter lead time to customers, and adding alternate suppliers for single source items, achieving overall cost reduction.

In times of crisis, thanks to your uncompromised responsibility, you managed the manufacturing department to its limits, enabling APM to overcome any obstacle and keep its commitments to the customers.

After setting up the SCM infrastructure you supported us in finding a manager to take responsibility for the full process and you keep supporting us today in new tasks and missions the company is facing.

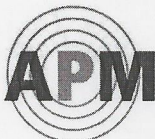

All these activities you did in a professionalism & peaceful manner. Mentoring workers and earning personal and professional respect from all company workers and management.

APM is happy with your services and thank you for dedicated work.

Sincerely,

Tal Laufer
VP Operations
